A very unique DLC chapter involving wrangling Nomes sort of reminiscent of Pikmin. I didn't encounter any game-breaking glitches, though occasionally the Nomes would get stuck/disappear and I'd have to restart from a checkpoint or walk around until they wized up. I didn't lose anymore than a minute or two of progress total, but your mileage may vary. Like the other DLCs it is rather short, but the way the level design works and the collection of Nomes was entertaining enough for me to recommend this chapter.. Fun, wacky puzzle game. Who knew sorting cats kept us from being sucked into the sun all along?. It is really cute and the puzzles are worthwhile!. I can play on the web with a bad UI the original. This started rather interestingly, but at the moment I'm really struggling with the character motivations. My MC seems way too casual about people being literally torn apart and society collapsing. It goes for other characters too, they refer to Zombies in such a way that they almost seem a minor inconvenience instead of the end of the world.

I wanted to make choices that would reflect the grave situation my MC found himself in, but I was only able to show 'Concern' instead of panic. It's especially difficult to justify when my character is just a teenager, but has the thought process and emotions of someone much older.

I've encountered at least one moment where the game 'balance' and the story clash, with my MC being able to haul around a huge amount of heavy equipment. He's got a damn portable generator, a tarp, and wood/metal equipment stuffed in his trousers.

Characters seem adamant on referring to it as a 'Virus' and not a pandemic.

Overall, I feel like I should play this game several times with different characters to offer the best review, but my current experience has been pretty miserable, with the game not really acknowledging my view of how deadly serious things are.. If you like audio books get this. If you have VR and would like a VR audio book then get this. For two bucks just get this. It is worth it for the 3D scenes in 360. I sat down while it read to lessen the vertigo feeling and just move your head slowly around and focus on one part of the scene for long periods rather than looking around constantly. That is Uncle Game Cooker's advice. I have a short video up on my channel if you want to listen and see it but it is not the same as being there. I am not into audio books but I say it is worth the buy to add to your VR collections.. This is an excellent program and I highly recommend it. I used this to practice my presentation.. PC????? ?????????????? ?????????????????????????????? ?????????????????????????? ??

very good game i recomended. A simple, but engaging futuristic wave-shooter with various powerups with an almost meditative feel about it - if that can be said for a shoot-em-up? Holds promise.. This game is a work of art if you have watched videos such as young latino lady gets ♥♥♥♥ed by stepmother or big daddy gives daughter big♥♥♥♥♥♥you will love this game its a work of ♥♥♥♥ing art.. After spending a few hours into the game I was really immersed in how easy it is to pick up and have fun when im not playing those big AAA titles so its literally my go to title when i take a break!. Best most festive game I have ever played. It's very fun, the characters have different abilities making each one unique with their own different play styles. Great game just needs a larger amount of players, although it is in Early Access so it gets a pass.. At this point I don't really recommend it. The trailer seems a bit misleading. Right now, it's basically just another physics puzzle game with a sandbox mode; I was expecting more. And, the controls are way too sensitive. It makes it really hard to steer. If I could un-buy this, at least maybe until a later date, I would.. Might be good for a first grader. The entire game only lasts a few minutes, very poorly done, bad graphics, bad controls. Don't bother.. A great VR meditation environment. A little pricey for the current state of play, but I'm taking it on faith the developer will add an expanded musical selection, more fish variety, and immersive (theme appropriate) backgrounds.

I'd love to see this same concept delivered with different themes... for example, sitting under a tree with interactive cherry blossoms or hummingbirds instead of fish.

Good beginning, Sorasu.... let's see more!. Game is genuinely a blast to play with friends. It's quick and is perfect to play while waiting for something or someone

Dating App Level is LIVE (plus updates):

Hey Everyone,

We have now gone live with our "Dating App" level. This level is totally different from the other levels in the game. If you are into Tinder dating I'm sure you'll get a lot out of it. Even if not, it's one of our most interesting levels and was the hardest for us to produce. I hope you like it!

In other news, we are still working on Portuguese (br) and German subtitles and I hope to have those working by early next week!

Regards,

Rich. German and Portuguese-br subtitles are live!:

We are live with German and Portuguese-br. Sorry for the delay in getting these into the game! Now we will be testing to see that the subtitles show for each option, this is a manual process and we'll continue to push live updates as we make fixes.

By the end of the week we should have all the languages in a very solid state. We will also be making other more general non-language fixes.

Thank you for your patience waiting for these!

Remember that I'm interested to hear your feedback, especially on the new things in SS2:

- What you thought of the new characters.
- Whether the stand-up comedy level was fun.
- What you think of the Tinder level.

etc. So please let me know in the community hub. I check in every few days to see what people are saying :)

. Snow Light Super Seducer 2 - Advanced Seduction Tactics **Twitch Integration and Korean language added today!:**

Hi Everyone,

Big update today! We have added Twitch integration to both Super Seducer 1 and 2.

Here are the instructions:

<https://www.puatraining.com/superseducer/twitch/>

We also noticed that the game was recently a hit in Korea so we've added Korean language support. Credit to [REDACTED] for the translation :) I've been to Seoul twice and really like Korean movies so was happy to see the game do well there :)

I'm also getting lots of questions about Super Seducer 3...what to say? Well we are working on it, it's going to be great...and when I have news I'll announce it on Twitter. Wishlists are open on Steam.

Thanks to all the Super Seducer fans for the support, good reviews, positive comments, and overall support, it's all much appreciated by me and our small team!

Rich

For other languages, we are working hard to either incorporate or to get them working properly. Sorry for any issues in your language, we had a bigger translation job this time and less time to test, we hope to get everything working well with current languages in the next few days.

German and Portuguese will be added next week.. **Update on Localisation and Level Unlock:**

Hi Guys, we continue to update the game daily. We found some errors in the subtitles and a few in the game. Totally my fault in not managing the file formats and encoding of all the translations. The translation is 86,000 words so is a massive job. We are continuing to fix existing languages.

German, Portuguese (pt-br) and French languages will be added in the coming week.

Good news: the "Dating App" AKA Tinder level will unlock on the 19th of September. This level is our 2nd biggest and was the 2nd most expensive to make after Level 1. It's totally different and I hope you like it :)

Finally, I just added a 6 minute preview of our documentary, you can see it here:

https://store.steampowered.com/app/932743/Super_Seducer_2_Documentary_The_Dark_Side_of_Seduction/

I'll post another update next week when we have added more languages and the bonus level goes live.

Thanks for your support so far and patience with these localisation issues :)

Rich
